

Maryland Gerontological Association Networking Breakfast and Presentation

New Approaches to Creativity: The TimeSlips Project

TimeSlips™ is an internationally recognized model that employs improvisation and creative drama techniques to help people grow and connect across the challenges of cognitive disability. This special, interactive program will demonstrate how TimeSlips™ uses these techniques to elicit unique, individual expressions from participants and facilitates stories that reflect the dignity of the storytellers. Our presenter, Liz Nichols has taught this innovative method to hundreds of dementia care professionals and volunteers. She is also a professional storyteller, museum educator and Certified Laughter Yoga Leader with wide experience in the field of creative aging
